

No Hope For Canadian Prosperity In Group Government

Canadian Pacific Watches Development For Oil In The North Closely But Has No Immediate Plans For Construction

Premier Greer Had Conference with C.P.R. Chief on Sunday Afternoon

ON TRIP OF INSPECTION

Thinks Conditions in Western Canada Point to Better Business

E. W. Beatty, president of the Canadian Pacific Railway with his party, reached Edmonton shortly after two o'clock yesterday morning, arriving here from Calgary, and left at 11:30 p.m. for Jasper, where a few hours are to be spent.

The C.P.R. chief's reference to the oil fields in the west, while not showing any immediate plans for Canadian Pacific construction in the oil fields of the territories north of the mountains, indicated that the Canadian Pacific railway views with a great deal of interest the possibilities of oil development.

It is understood that Premier Greer had a conference with Mr. Beatty during Sunday afternoon, but the details of the interview were not learned. The Canadian Pacific railway president was met at the Canadian Pacific station by Mr. M. E. Evans, Colonel Primrose, Manager of the Canadian Pacific, and others.

Following the arrival of the train at 2:30, and after shaking hands with the various friends who met him at the station, Mr. Beatty and his party motored to the Edmonton Golf and Country Club, where a pleasant afternoon was spent.

Accompanying the president, his personal bodyguards of the west, are Sir Herbert Holt, Sir Augustus Vanier, General Sir James H. D. McCallum, and other members of the Canadian Pacific; Mr. D. Cole, manager of the Canadian Pacific western lines; Dr. McCulum and General Nanton.

Speaking of general business conditions, Mr. Beatty remarked that while there was no definite information existent in eastern Canada, his trip would indicate that the conditions he observed convinced him that conditions were fairly good in the west, and that there was every prospect for better business conditions in the future.

The unemployment question was touched upon, and Mr. Beatty declared that still more men were needed on the prairies to develop the coal and oil fields, and the various railway construction undertakings, he said, would help to bring about the winter undoubted work for the unemployed.

The present financial situation reflects the large grain crop of the Edmonton district and the fact that the fall would be of a character that would be favorable.

Mr. Beatty, in answer to a question as to whether or not he could possibly return to the western prairie crop would be moved via the railroads to the east, said that the negative.

What any action would devolve from Lord Shaftesbury's suggestion that all Canadian railways should operate under the Canadian Pacific railway, would depend upon conditions existing in the new organization.

Sir Augustus Fenton came to the west in due course, and as chairman of the advisory committee of the Canadian Pacific, and as chairman of the executive committee of the Canadian National, he is probably the foremost Canadian in the west, and is a senior member of the Winnipeg bar.

Mr. Fenton, a barrister, has been a member of the Toronto house of which Mr. Beatty is a member, and is the promoter of many successful enterprises.

He has better knowledge of the west, Sir Herbert Holt also arrived in the early days, he was accompanied with Mr. Ross and MacKenzie and Mann, in connection with the opening of the Canadian Pacific railway. Sir Herbert has for a long time been president of the Royal Canadian Legion, the Power company, and also of the Royal Bank of Canada.

LIBERALS MOST LIKELY TO GIVE STABLE CONTROL

Neither Farmer nor Labor Class or Combination Will Be Representative

JAMES MURDOCK SPEAKS

Leader of Trainmen's Brotherhood Placing Himself Behind Mackenzie King

TORONTO, Sept. 25.—Hope for Canada does not lie in the election of a Farmer or a Labor government, nor in a combination, both declared James Murdoch, formerly of the board of commissioners of the Brotherhood of Railroad Trainmen, in a speech to the Toronto G.I.C. which will appear tomorrow. Such a government would be a class government, and he does not believe the government could solve the difficulties that now confront the government.

Mr. Murdoch picks the Liberal government as the best for Canada, stable government at present, and the announcement he will make to the Canadian Press from Chicago in a couple of weeks will direct right in the interests of Hon. Mackenzie King.
